

I'm concerned that my child has been moved from SEN Support (K) to Monitoring (M) on the SEN register.

Many students are moved from K (SEN support) to M (Monitoring) on the SEN register due to the fantastic progress they make. Due to being an M on the register your child will still be flagged up to staff as having an additional need and staff are made aware of this. We want to reassure you that although they may come off the formal list, they will still have access to support offered such as extra time in assessments. Students are also formally tested in Year 10 for exam concessions. If at any point we all feel that your child is not continuing to make progress, we can put them back on the register.

We also let her teachers know what difficulties students have through Mint Class whether they are a K or M on the register. Please see an example [here](#).
