

# Y9 DT Parental Contribution

Dear Parent

During Y9 your son/daughter will get to experience the different areas of design and technology offered at GCSE: food and nutrition; fashion and textiles; Design, Engineer, Construct and product design. They will get to develop different products that they will be able to bring home at the end of each rotation.

They may be asked to provide some of the ingredients for food and nutrition, we provide the store cupboard ingredients. We are asking for a contribution of £8 to enable us to offer the high quality projects and outcomes within DT. This should be paid via parent pay by October 1<sup>st</sup> by using following the link:

<http://www.parentpay.com/>

In addition we are able to offer access to free software that your child can access at home that will introduce them to 3D modelling and is supported by tutorials. The instructions for this will be shared using Edulink.

If your child receives Free School Meals, we do not expect a contribution. If you do not receive Free School Meals but are experiencing financial difficulty at the moment, please speak to your child's year manager in confidence. Please get in touch if you have any problems,

Helen Vardy  
Head of Design and Technology
