Biographies – complete this activity last.

Look up each person and record key facts about them in relation to this topic. Apart from the Tsar and his family, do not record details about families (parents, wives/husbands/children etc): rather focus on **their role in events** you have researched for your timeline. Aim to use **key words** from your glossary in your notes. If names are grouped together, they had a similar role at this time – what was it?
