

Health & Social Studies – Preparation for Sixth Form

Brief introduction:

This is an exciting and hands-on course! So that you can prepare in becoming the next Health & Social Care Hero, look at the tasks below.

You will learn about a range of interesting topics which will support your learning into this rewarding career!

The compulsory tasks will need to be completed so that you are prepared for this A-Level equivalent course. This is a challenging course and requires your dedication. The suggested preparation is also important, but you have the opportunity to select the tasks which interest you.

		What to do	Completed
Compulsory preparation work	Unit Knowledge	Look at page 1 for info about some of the compulsory units	
	Prior Watching & Reading	Look at the suggested reading and watching on pages 4-7 and complete the learning log and task on page 7 and 8.	
	Key words / terminology	Complete the Glossary on pages 9-10. You will then need to research medical terms or jobs within Health & Social Care to complete the A-Z on page 11.	
	Tasks	Complete the check list on page 21 to ensure you have built up the prior knowledge needed for the course.	
Suggested preparation work	Prior Watching & Reading	Although you only need 5 from the suggested list of watching and reading, you can watch and read as many as you like and make a note of these by adding them to your learning log	
	World Pandemic Task	There are options extension tasks from pages 16-20. You can do all of these or select the ones that interest you the most!
